

12-Month Placements

Information for Employers

"The 12-month placement is a great introduction to practice based learning within the profession. The valuable experience obtained prepares students to join the profession on completion of their degree."

Grant Sinclair

Programme Leader, BSc (Hons) Building Surveying,
Edinburgh Napier University

We offer placements for the following courses:

QUANTITY SURVEYING

BUILDING SURVEYING

**REAL ESTATE
SURVEYING**

WHY PLACEMENTS?

A 12 month placement is available to students on the programmes below during their third year of study. This offers a fantastic opportunity for your organisation to work with students who are keen to apply theories and techniques learned through their studies to real world situations. Our 12-month placement helps your organisation contribute to the education of future built environment professionals.

Relevant Programmes:

**BSc (Hons)
Building Surveying** ➤

**BSc (Hons) Quantity
Surveying** ➤

**BSc (Hons) Real
Estate Surveying** ➤

These courses are accredited by the Royal Institution of Chartered Surveyors (RICS).

EMPLOYER BENEFITS

- Access to highly motivated, fixed-term employees (who could later become graduate recruits);
- Cost effective solution to skill gaps;
- Develops existing staff through mentoring or supervision of student(s);
- Opportunity to contribute to the education of the next generation of Surveying professionals through the development of soft & technical skills and
- Will help your business develop links with Edinburgh Napier University that will benefit you now and in the future.

HOW DOES IT WORK?

Our Placement team liaise with you on all aspects of the recruitment process, from advertising placements and sending you CV's from students who have applied to organising interviews. This will be offered at no extra cost. When the interviews are complete and you have selected the student(s) you would like to employ, we would ask you to offer a placement to the successful student(s), subject to your usual terms and conditions. While on placement, students will be assigned an Academic Tutor who will visit their place of work (virtually or in person) to ensure that the placement is going well.

"The placements allow our students to apply their first 2 years' learning in a professional, work-based environment and provides an opportunity for employers to add value to their organisations, through the application of the students' knowledge and the skills introduced at the University."

Mike Thomson

Programme Leader, BSc (Hons) Quantity Surveying,
Edinburgh Napier University

"Placements offer a valuable insight into the 'world of work', but also provides the type of hands on experience students need to complete the final year, secure employment and develop a career in Surveying."

Professor Mark Deakin
